

Hip Protectors

Features:

- Contains highly shock absorbent material built in to the critical areas around the hips - capable of absorbing no less than 60% of the impact from a fall
- Skin-friendly material adapts quickly and comfortably to body contours
- The removable protective elements are less than a centimetre thick and comfortable enough to wear over-night
- Machine washable at 90° if the protective elements are removed, or at 60° if they are left in

Indications:

- Significantly reduce the risk of hip fractures, particularly in patient's with Osteoporosis, Parkinson's Disease, dementia and diseases of the joints
- Increased self confidence and ease of movement
