

## Shell Walker & Shell Air Walker

### Indications:

- Grade II/III ankle sprains
- Stable fractures of the fibula, talus, calcaneus and medial malleolus
- Post ligament, soft tissue and tendon surgery
- Forefoot or midfoot injury

### Features:

- Substitutes ankle motion and aids propulsion
- Decreases heel-strike force on calcaneus
- Rocker bottom design assists gait
- Contoured strut design provides better support and fit
- Front and back panels for superior protection
- Shell Air Walker includes inflatable aircells for further support while reducing swelling and evenly distributing pressure
- Available in standard (17" height) or short (11" height)
- Replacement liners available
