Storage Conditions:
Store in a cool and dry environment.

Care and Maintenance:
- Machine washable at 40°C
- Use a towel to absorb most of the dampness and then allow to dry at room temperature.
- Do not expose to alcohol, ointments or solvents.
- The device should be safety checked by the providing service and/or user every 6 months.

Contraindications:
None

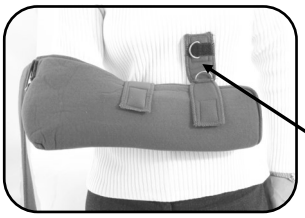
Precautions / Warnings / Residual Risks:
If allergic skin rashes occur, please consult your healthcare professional

Possible Adverse Reactions:
None

Single Patient Use Precaution:
This device is designed and sold for single patient use only. The effects of any unauthorised reuse can result in the following complications:
Risk of Cross contamination;
Risk of mechanical fatigue, and/or associated failure.

Directions For Use / Fitting Instructions:

PLEASE NOTE: The High Arm Sling is universal for both left and right arms. These instructions for use demonstrate the product in a right arm application, however the left arm configuration is an identical application process.



- Place the injured arm into the sling, ensuring the elbow is held securely in place. Whilst holding the sling in a closed position, attach the securing strap to the front of the sling as shown and fold over to secure.

- To attach the D-ring strap, ensure it is positioned 5-7cms up from the patient's wrist. Fold over to secure, ensuring the side facing D-ring is positioned on the inside of the sling.

- Place the shoulder strap over the uninjured shoulder and feed through the D-ring attachment, securing the strap firmly with the Velcro® fastening as shown. Adjust the height as required.
